

NIKE AI — CONTENT ROADMAP

PHASE 01 — CHARACTER ESTABLISHMENT

Antes de vender el producto tenemos que presentar a las personas.

CONTENT

1. Character A portrait
2. Character B portrait
3. Full-body Character A
4. Full-body Character B
5. Character A basketball
6. Character B basketball
7. Character A lifestyle
8. Character B lifestyle

OBJECTIVE

Establecer identidad visual.

PHASE 02 — THE OUTFIT

Introducir Nike apparel.

CONTENT

- Outfit photos
- Mirror UGC
- Sneaker close-ups
- Getting dressed
- Before training
- Streetwear
- Full-body editorial

VIDEO

"Get ready with me."

"Training outfit."

"What I wear to play basketball."

PHASE 03 — THE COURT

Introducir el basketball como elemento principal.

CONTENT

- Walking onto the court
- Ball close-up
- Sneakers touching court
- Dribbling
- Running
- Jump shot
- Defense
- Two-character interaction

VIDEO

15–20 second basketball sequence.

PHASE 04 — THE GAME

Aumentar la intensidad.

STRUCTURE

START

Silence.

Close-up.

Shoes.

Ball.

Hands.

BREATHING.

Then:

RUN.

DRIBBLE.

JUMP.

SHOOT.

LAND.

CUT.

Final shot.

PHASE 05 — UGC

Una vez establecidos los personajes, crear contenido aparentemente espontáneo.

EXAMPLES

"Come with me to basketball training."

"Today's fit."

"Testing these for the first time."

"POV: you said you were only going to shoot around."

"Training day."

"Post-game."

PHASE 06 — HERO CAMPAIGN

Finalmente unir todos los elementos.

HERO FILM

Dos personajes.

Una cancha.

Una ciudad.

Un producto.

Una historia.

Un objetivo.

La pieza debe combinar:

- Character
 - Product
 - Basketball
 - Fashion
 - Cinematic movement
 - Sound design
 - Social storytelling
-

PHASE 07 — CONTENT RECYCLING

Cada producción debe generar múltiples piezas.

Por ejemplo:

UNA SESIÓN DE BASKETBALL

Puede producir:

VIDEO

1 Hero film

2 Reel

3 TikTok

4 YouTube Short

PHOTOGRAPHY

1 Hero image

2 Portrait

3 Product image

4 Action image

5 Detail image

UGC

1 Training vlog

2 Outfit check

3 Sneaker review

4 Behind the scenes

Así conseguimos que una única producción genere una gran cantidad de contenido.

PRODUCTION PRINCIPLE

No crear:

1 prompt → 1 publicación

Crear:

1 CONCEPT → múltiples assets

Ejemplo:

BASKETBALL NIGHT

↓

Hero Film

↓

Action Photos

↓

Sneaker Photos

↓

UGC

↓

Behind the Scenes

↓

Instagram Carousel

↓

TikTok

YouTube Short

Stories

El objetivo es pensar como una productora, no como alguien generando imágenes individuales.
